

## Company Profile

Company Name: Tsukuba Technology Co.,Ltd

Founded: 1st July 2005

Capital: JPY 20million

Founder and CEO: Bo Wang

Headquarters: Sengenn 1-14-11, Tsukuba City, Ibaraki,  
305-0047, Japan TEL: +81-29-852-7777

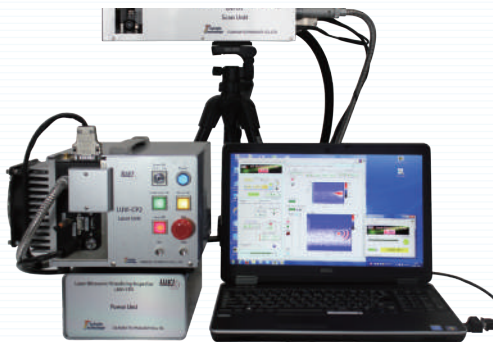

Tokyo Office: Shinbashi 1-18-21, Minato-ku, Tokyo,  
105-0004, Japan TEL: +81-3-6403-0849

Tsukuba Technology Co. Ltd in the Japanese science and academic city Tsukuba is a high-tech startup originated from National Institute of Advanced Industrial Science and Technology (AIST).

The company holds the top technology in nondestructive inspection field, and successfully developed the world's first "Laser Ultrasonic Visualizing Inspector", which quickly investigates inner defects of large jointing materials including CFRP (Carbon Fiber Reinforced Plastic) and "Compact X-ray Inspection System" composed of the most compact cold-cathode X-ray in the world. The equipment applies to a wide range of fields including transportation, utilities, electrics, medicals and security.

The company has won multiple national awards including The 6th Monozukuri Nippon Grand Award and 2014 Japan Venture Award. It was featured by various media including NHK World.
